

Læg brøkerne sammen

Materialet indeholder

- 2 ark med regnestykker uden brøkcirkler
- 2 ark med tomme brøkcirkler
- 2 ark med brøkcirkler inddelt i brøkdele
- 2 ark med brøkcirkler inddelt i brøkdele og markeret med farve
- 2 ark med facit

Alle typer ark indeholder de samme 13 opgaver.

I boksen øverst på første ark står der, hvilke tal de forskellige tegninger repræsenterer. Eleverne skal erstatte tegningerne med de rette tal og herefter udregne resultater af regnestykkerne. Opgaverne kan stilladseres i mindre eller højere grad ved at give eleverne de forskellige versioner af opgaver med brøkcirkler.
