Kort 0-20

Ideer til materialet

Kortene kan bruges til mange forskellige spil; f.eks. fisk, krig, sum- og forskels-krig. Sum- og forskelskrig er ligesom krig, hver spiller vender blot to kort af gangen og det er summen eller forskellen, der er krig om. Der kan spilles med alle kort eller udvalgte kort. God fornøjelse med selv at finde på gode ideer.

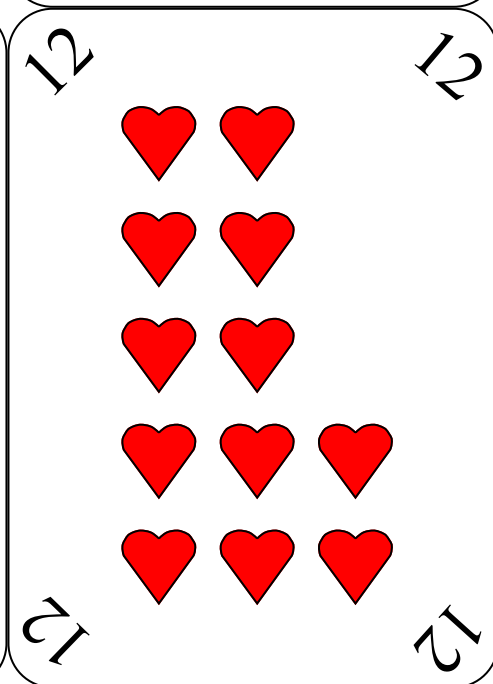

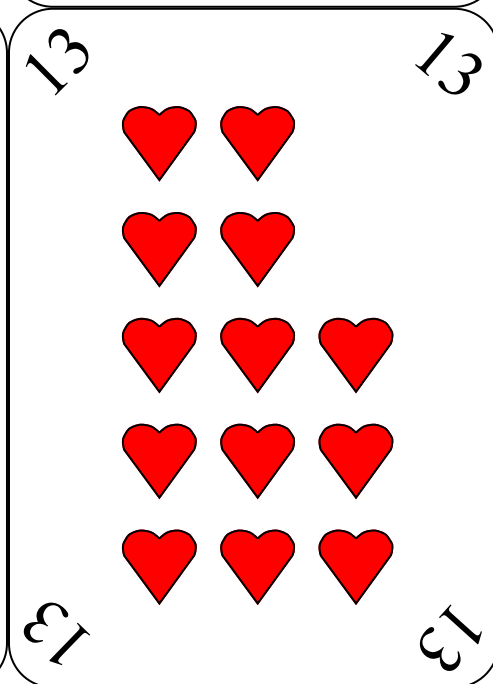

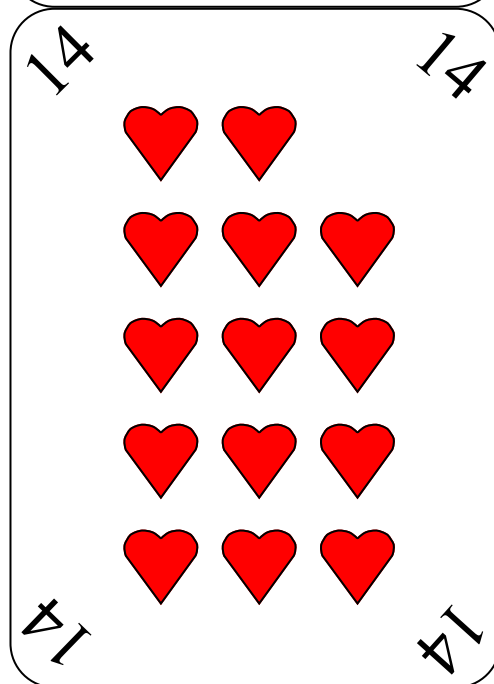

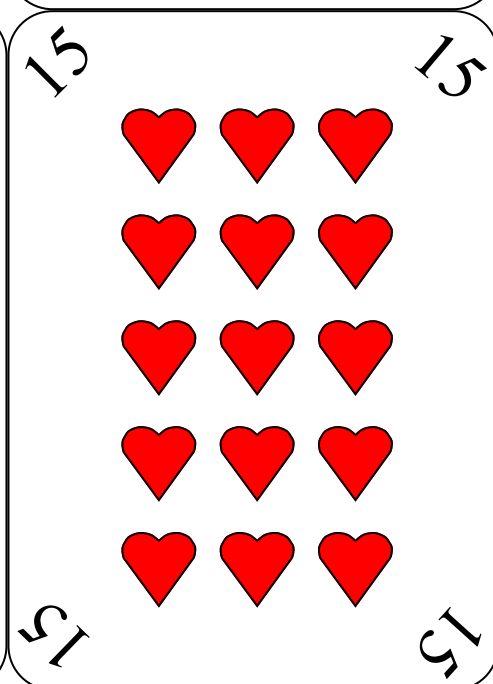

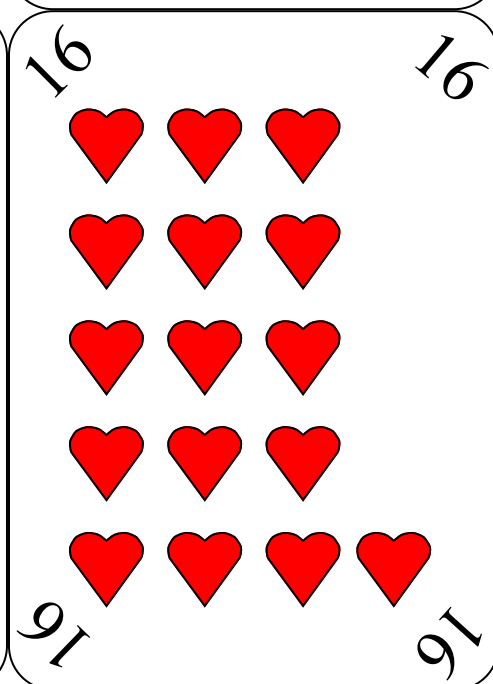

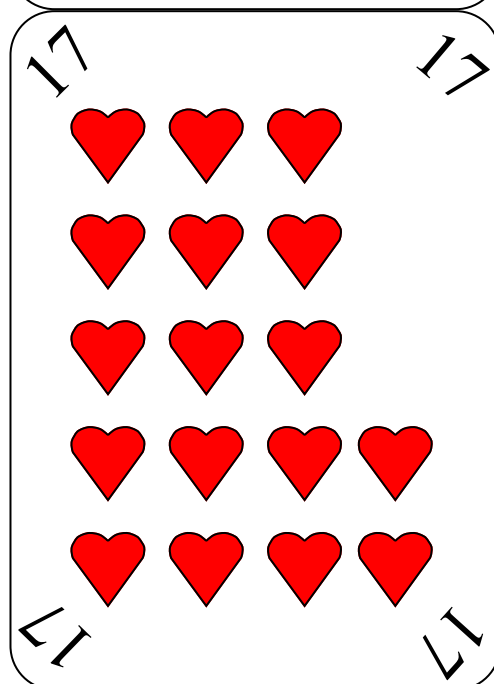

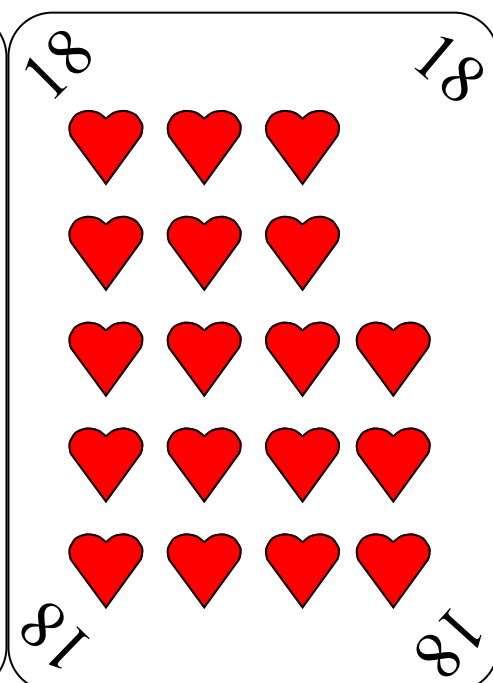

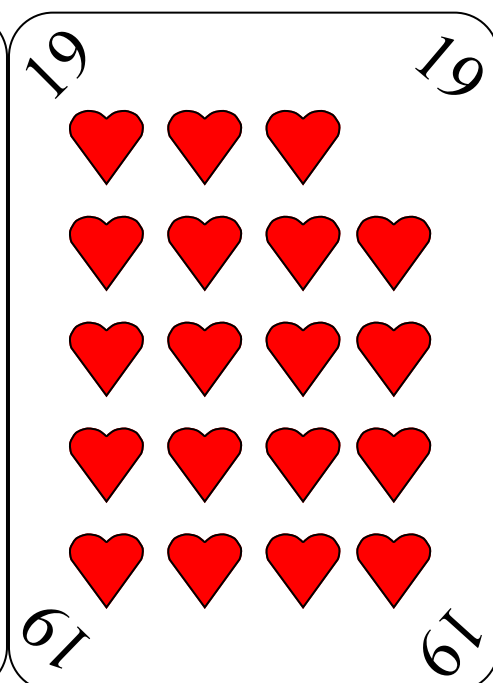

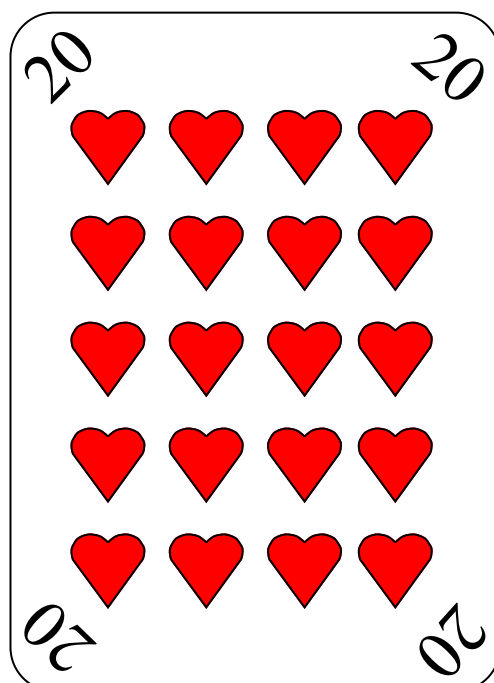

Fremstilling af materialet

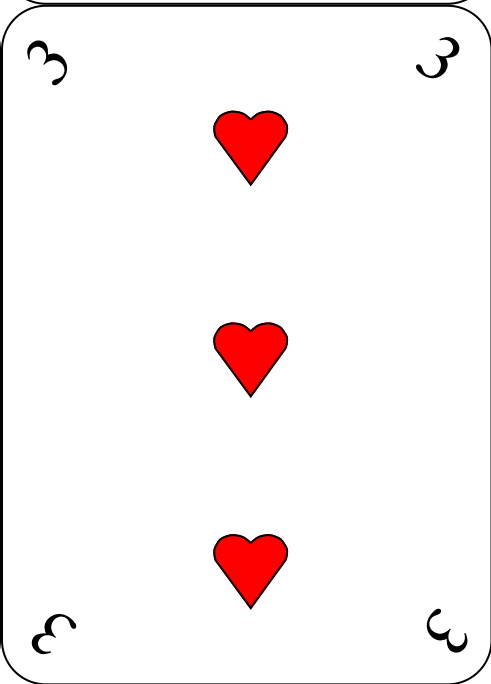

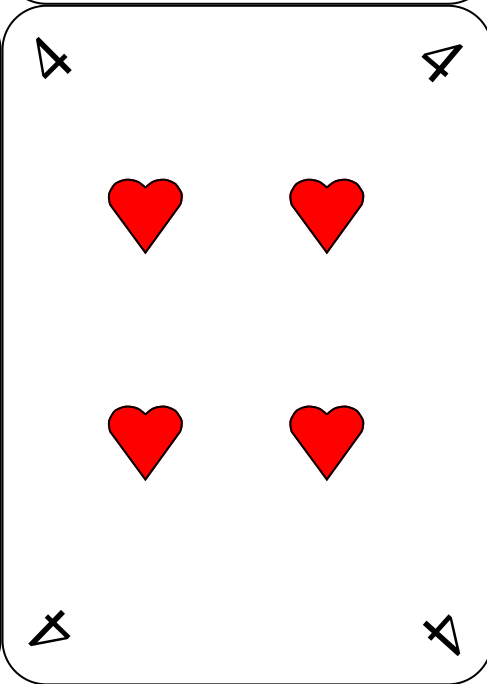

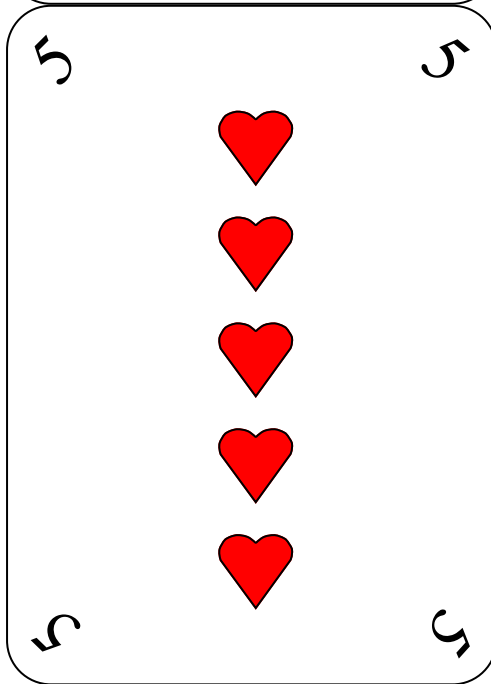

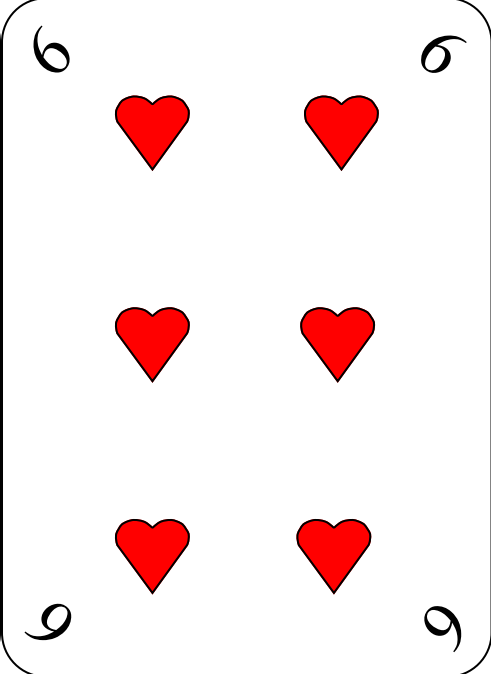

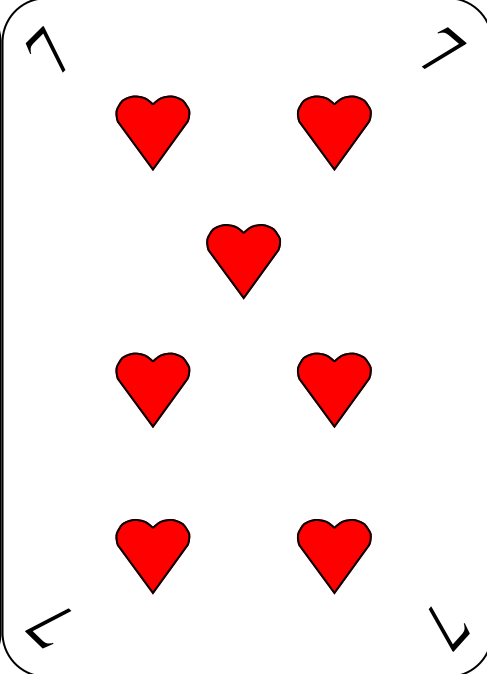

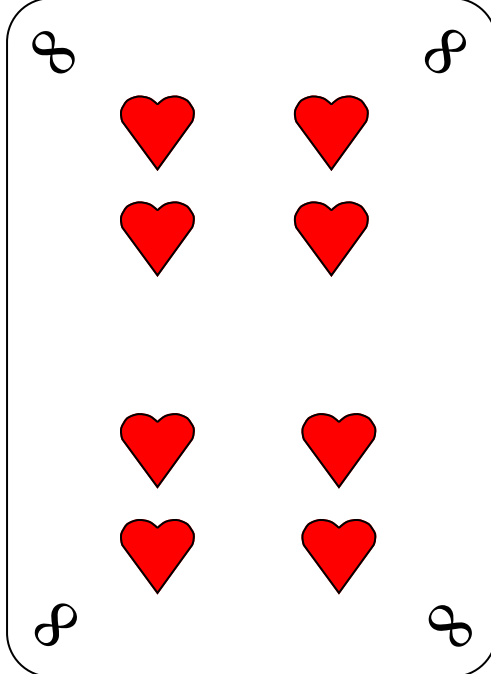

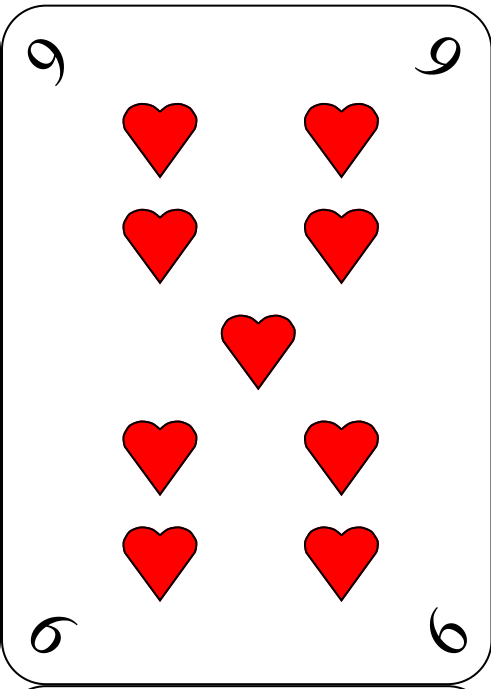

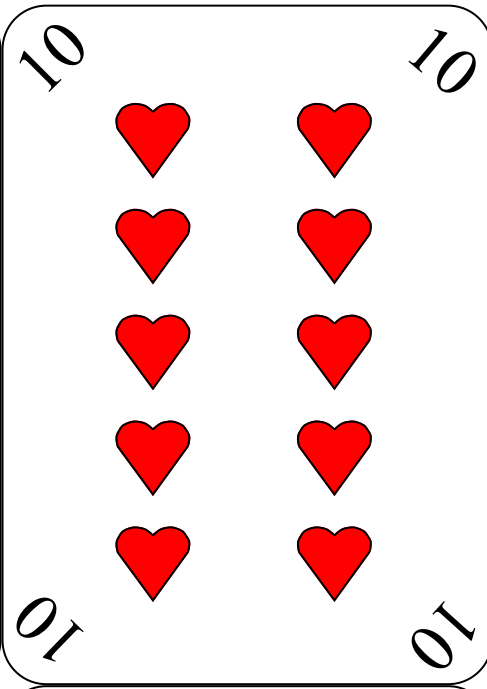

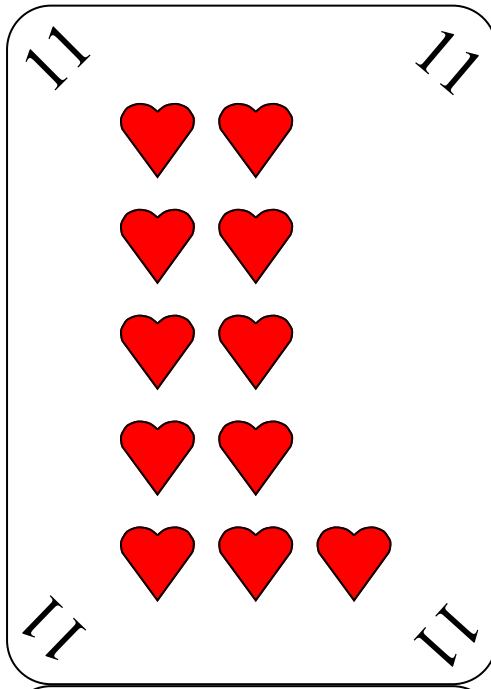

Kortene printes ud. Bagsiderne kan laves med forskellige farver/mønstre, således at det er nemt at sortere spillene, hvis de skulle ske at blive blandet sammen. De sidste 4 sider er ideer hertil.

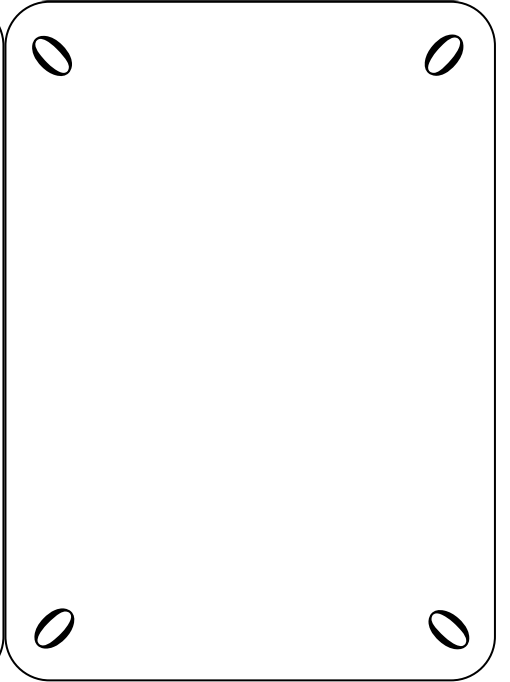

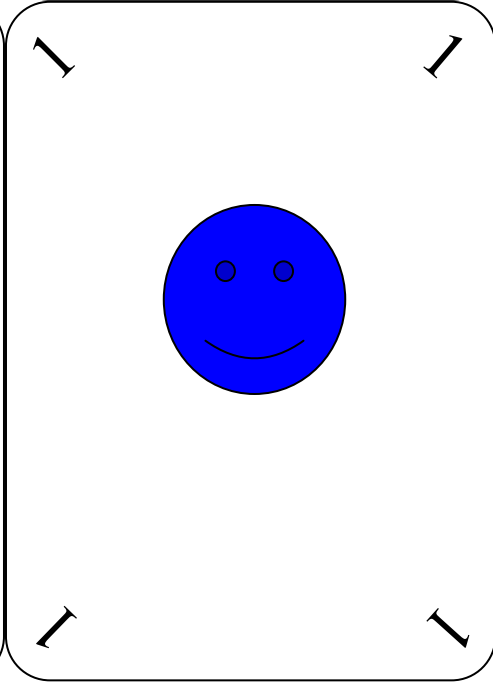

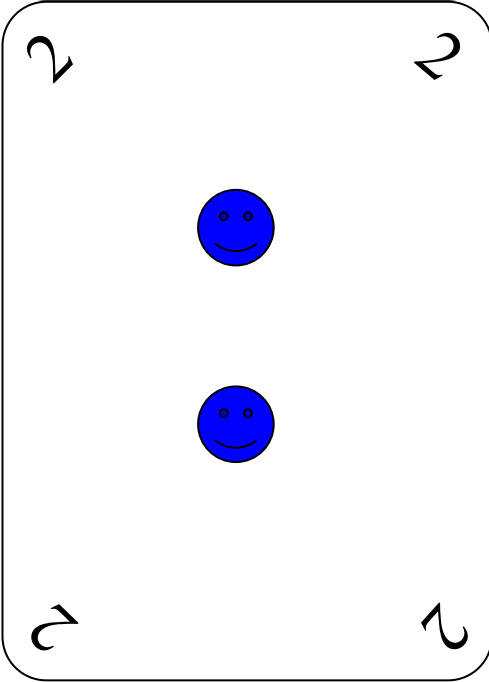

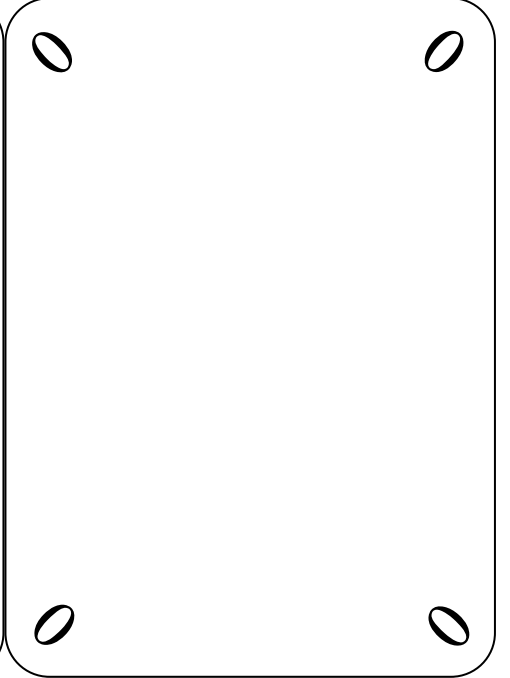

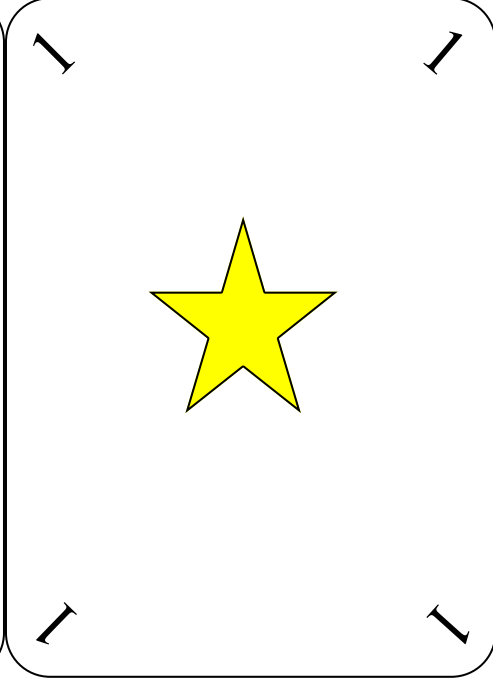

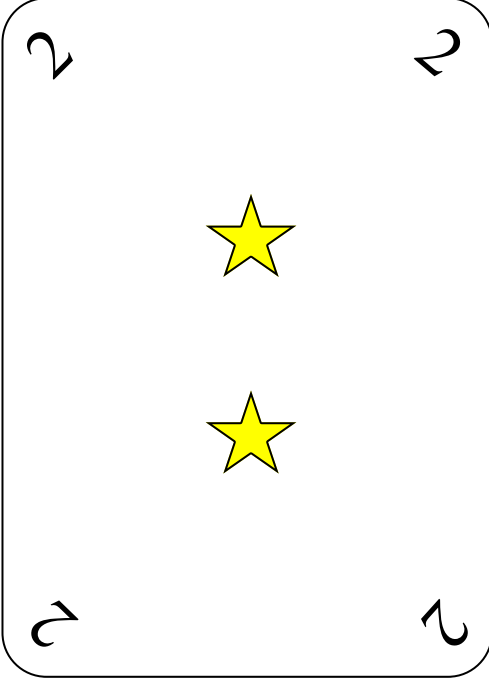

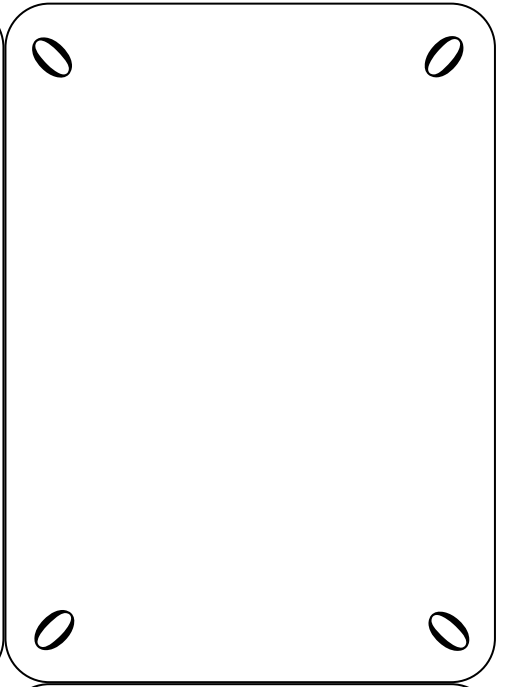

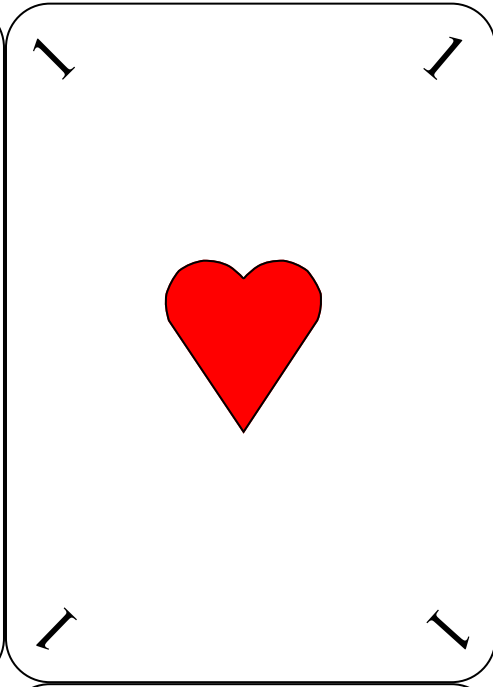

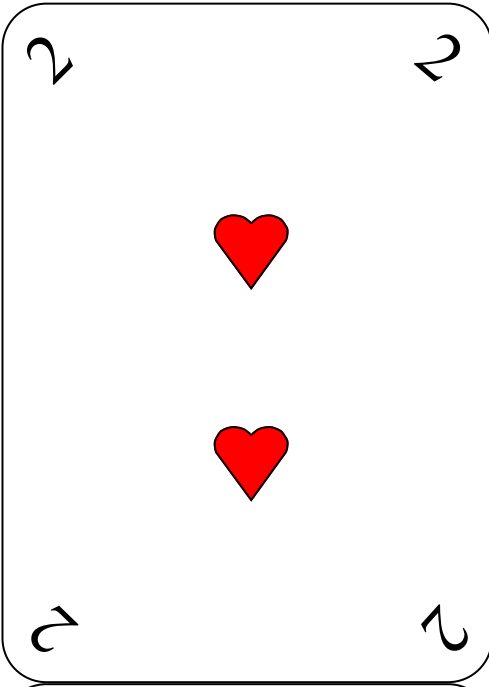

Kortene lamineres og klippes ud.

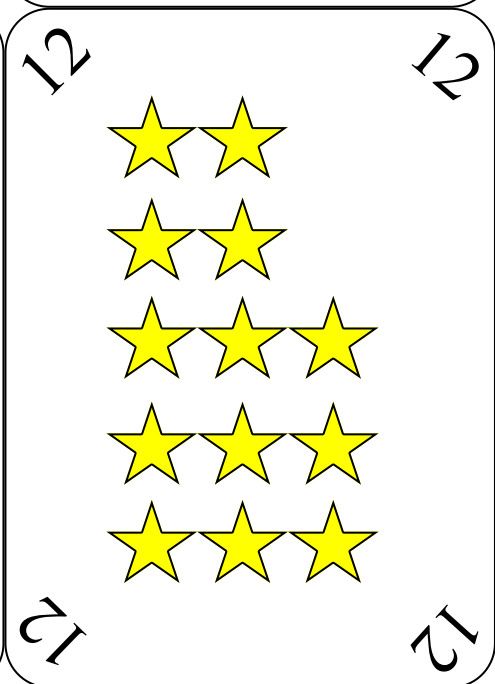

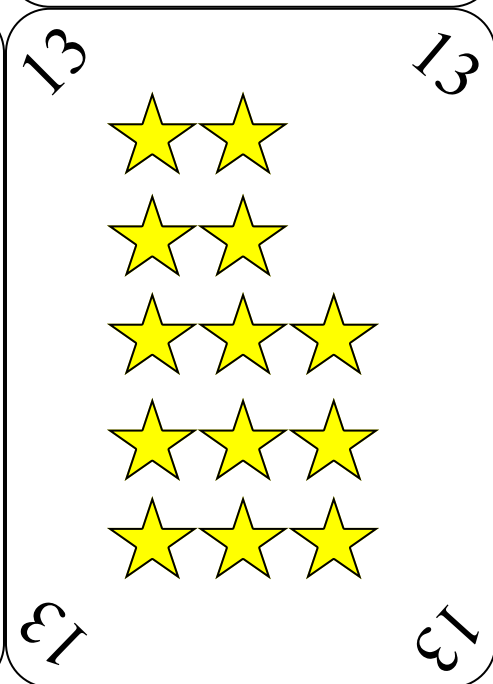

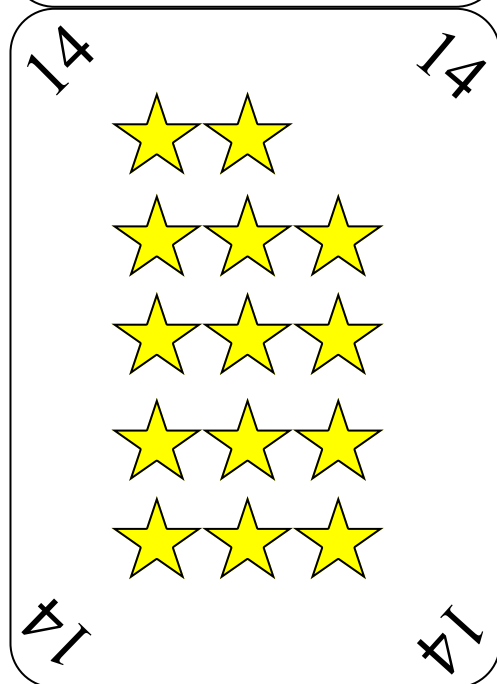

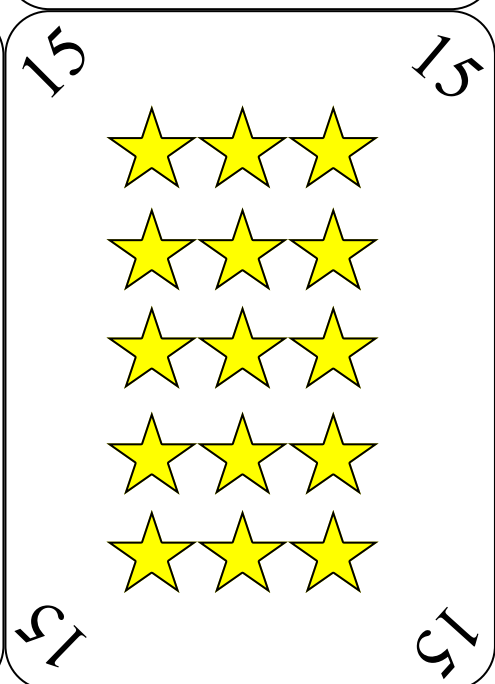

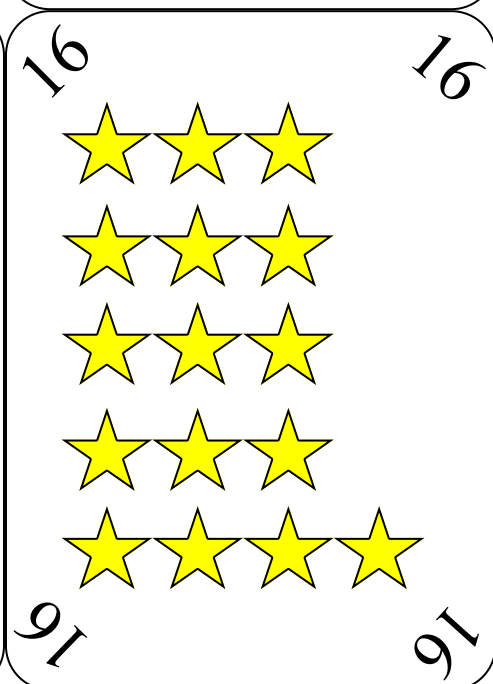

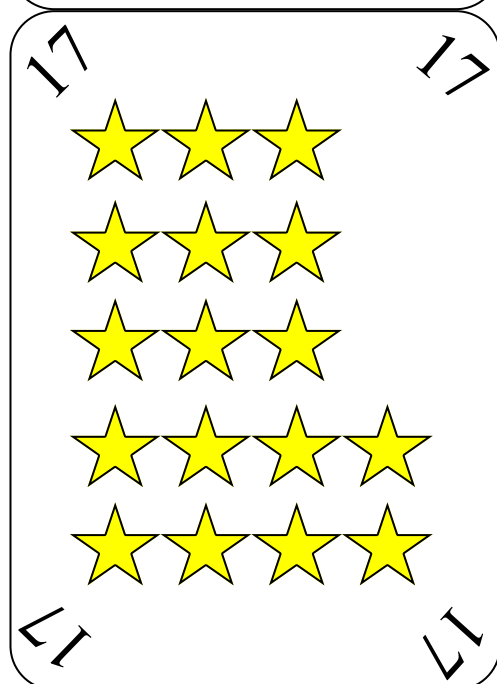

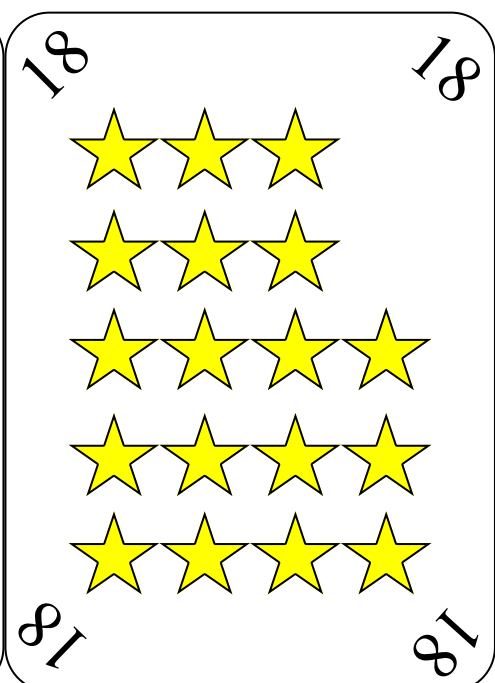

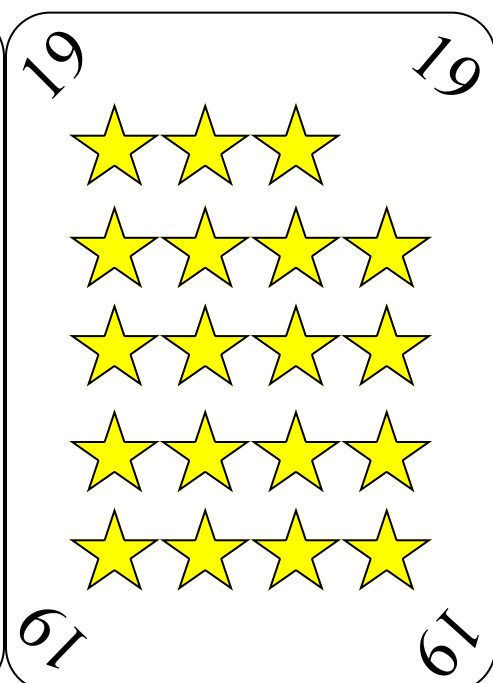

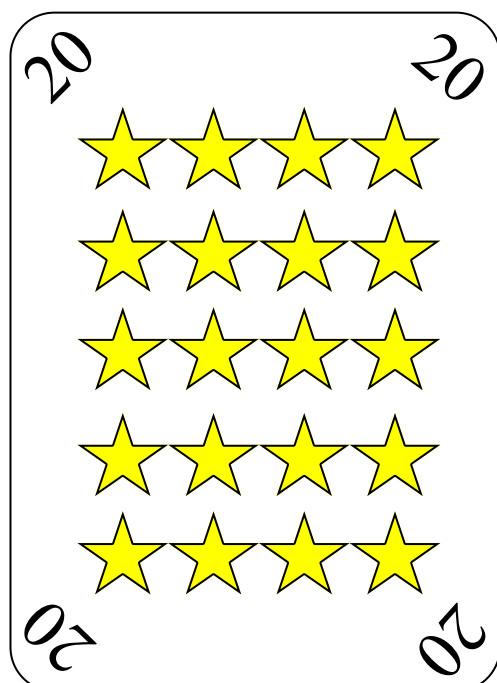

Ekstra ide til klasse-aktivitet

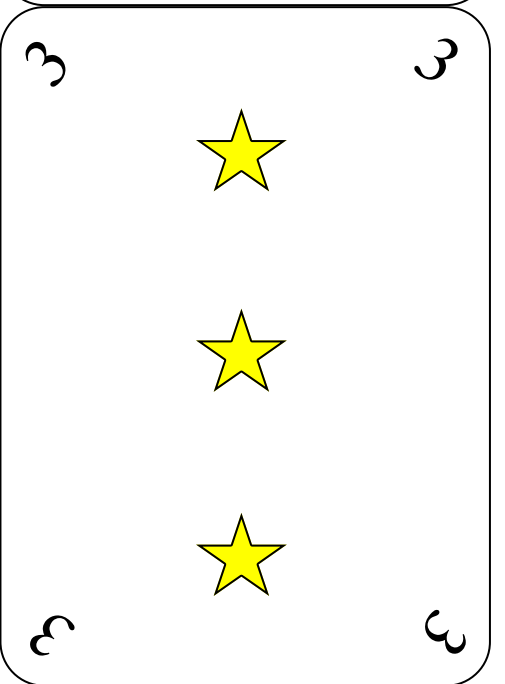

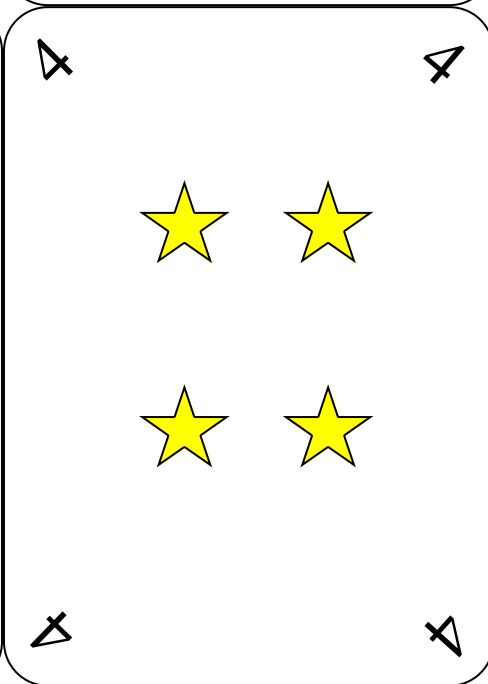

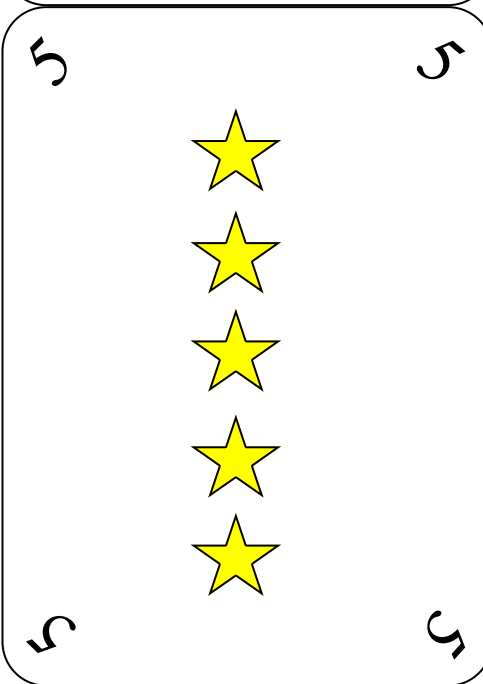

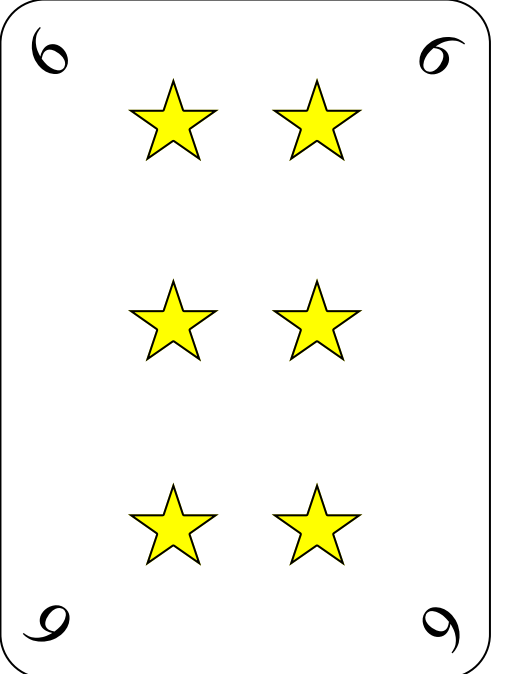

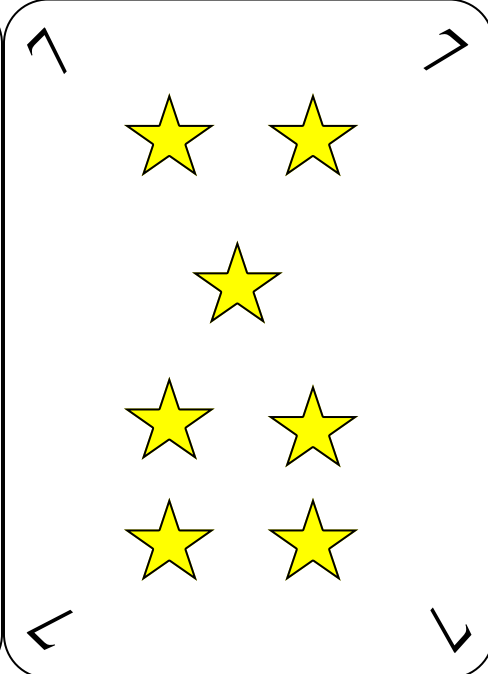

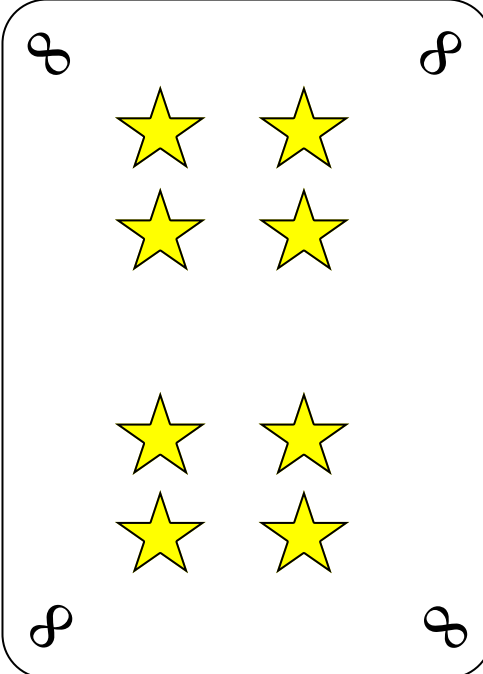

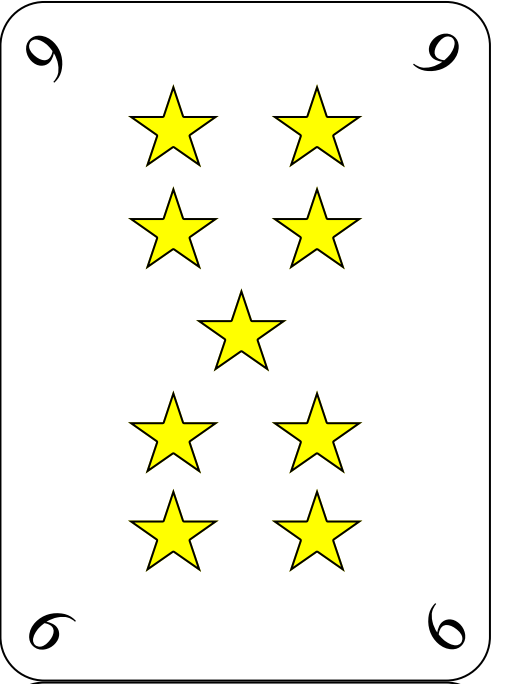

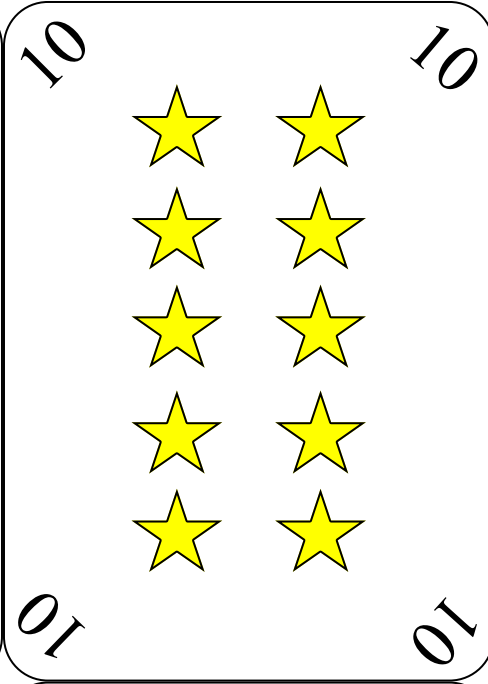

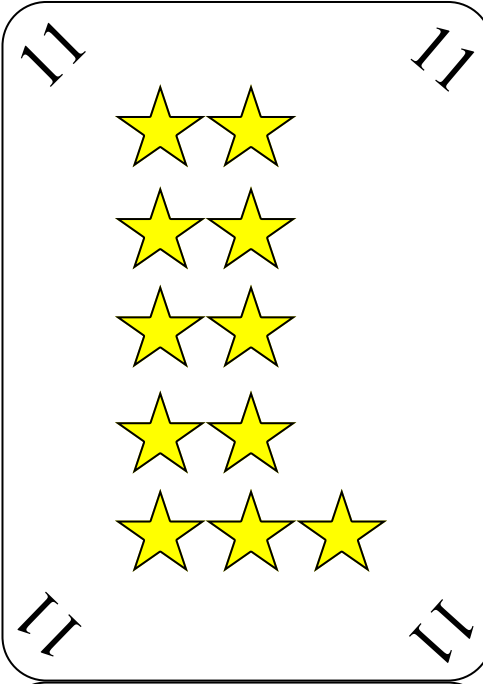

Alle børn skal have et sæt kort med tallene 0-10. Børnene blander nu deres egne kort og holder dem, så de kun kan se det øverste kort. Børnene går nu rundt imellem hinanden og finde 10-venner. Sammen aflevere de, de to kort til kontrolløren, og går nu på jagt efter den nye 10-ven til det kort, der nu er øverst. Det gælder nu for børnene på den måde at komme af med alle sine kort.
