

UNO

Med den lille tabel

UNO kan spilles på følgende måde:

Der deles 5 kort ud til hver elev

Øverste kort vendes

Før man må lægge nye kort på det øverste skal man regne gangestykket ud – man må lægge grønne kort på et grøntkort, eller en 1'er på en 1'er

Hvis man ikke kan regne gangestykket ud, skal man trække fra bunken
