Emnemappe – Bondegårdsdyr

Emnemapperne består af opgaver som primært er match opgaver. Det kan enten være match oven på 1:1, match ved siden af, match til skygge eller match tegning til billede (eller omvendt).

Nogle af opgaverne er også sorteringsopgaver.

Man kan vælge at have få eller mange opgaver i en mappe, alt efter elevens kognitive funktionsniveau. Man kan starte med få sider og så bygge på efterhånden som eleven får styrket koncentrationsevnen og at kunne holde fokus længere tid.

Emnemapperne kan bruges til at styrke elevens evne til selvstændigt, at kunne sidde og arbejde, men kan også bruges til at arbejde 1:1 med eleven da man dermed kan have fokus på sproglig forståelse og udvikling.

Alt mit materiale er designet til at være simpelt, intuitivt og uden for mange distraherende elementer.

Samlevejledning:

- Start med at klippe alle brikkerne ud på siderne 15–23
- Laminer derefter siderne 3–13 samt alle de udklippede brikker.
- Klip brikkerne ud igen og sæt hård velcro bag på dem
- Sæt blød velcro på alle de små grå cirkler på arbejdsiderne 4–12.
- Sæt siderne i et ringbind, husk forsiden.
- Sæt 1–2 strimler blød velcro bag på alle siderne til brikkerne (strimler med velcro + brikker på øverste side da der arbejdes i mappen på langs og arbejdsiden er nede lige foran eleven)
- Se et billede af den (eller en tilsvarende) samlet på min instagram profil.
