

E13

HOW MANY?

FORMÅL	MATERIALER	OPDELING AF ELEVER
Samtale, træning af faste udtryk, spørgsmål og svar. Endvidere en lejlighed til at træne tallene.	- Spørgsmål kort - Lærerark til hjælp ved oplæsning og statistik * Papirlap + tusch til hver. Evt. kan de også bare skrive på deres hånd. * Evt. lidt god musik i baggrunden for atmosfærens skyld	Hele klassen – evt. opdelt i par
		TIDSFORBRUG
		45 min.

INSTRUKTION:

- Hver elev får et spørgsmålskort, og du sikrer dig, at de forstår, hvad spørgsmålet betyder. Hvis I har aftalt, at de bare kan skrive på hånden, skriver de nu Y i den ene side og N i den anden på håndfladen. Ellers på en lap papir. Alle beholder deres tusch.
- Det er nu meningen, at de (gerne til musik) skal gå rundt blandt hinanden og stille deres spørgsmål for at lave statistik på, hvor mange der svarer hhv. Y= YES og N = NO. Når et par mødes, er der altså to spørgsmål, der skal besvares, så de begge får indsamlet deres data ved at sætte en streg ud for enten Y eller N på deres hånd eller papirlap. Efter udveksling af spørgsmål og svar skal de stille sig lige overfor hinanden, springe op i luften og give hinanden 3 x HIGH FIVE, inden de skilles igen.
- Stil gerne individuelle krav til deres svar. Nogle elever er rigeligt udfordret ved at skulle forstå spørgsmålet og kan nøjes med at svare YES eller NO. Andre kan svare og bruge hele sætningen, så udtalen bliver trænet. Endelig kan nogle måske svare og ydermere begrunde deres valg.
- Når den afsatte tid er gået, eller alle har talt med alle, kan I lave en fælles statistik på, hvor mange i klassen der har gjort/prøvet/lavet/syntes et eller andet. Det giver også en masse stof til samtale og måske drøftelser om hvorfor eller hvorfor ikke, præferencer og små fnis.
- Er de kreative, kan du sætte dem til at lave nye spørgsmål, som de kan bruge næste gang – det giver medarbejderskab og øget motivation. Måske kan de også finde på sjove måder at bevæge sig rundt på, så aktiviteten bliver endnu mere levende (gå i hug, gå på tæer, gå sidelæns, gå baglæns).

ILLUSTRATION TIL *E13 – HOW MANY?*

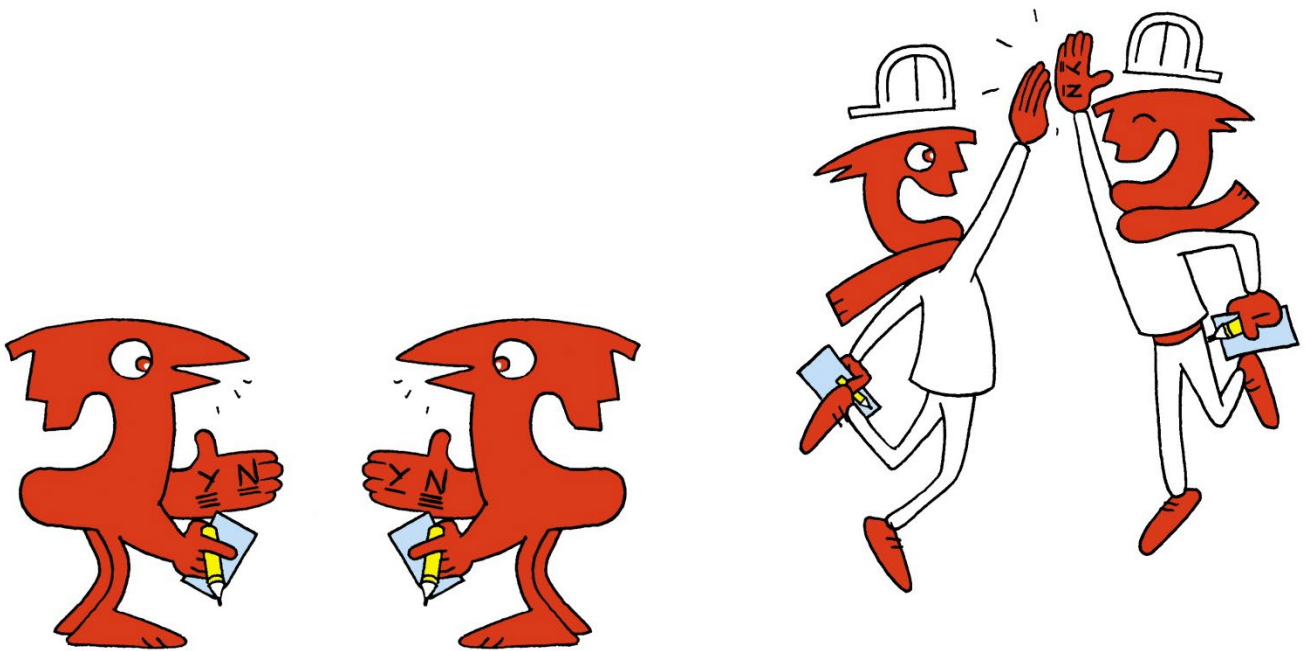

Illustration af www.saxoart.dk

NB!

Hvis klassen er meget forsigtig og tilbageholdende med at tale og formulere sig, kan det måske være en hjælp at lade dem arbejde i par, så de kan støtte hinanden og skiftes til at spørge og svare. Parrene bedes om at tage hinanden i armkrog, så de SKAL følges.

Efter nogle uger kan du tage aktiviteten frem igen og denne gang stille større krav til deres svar, så formuleringsevnen såvel som ordforrådet hele tiden øges.

1.

Did you watch a film last night?
